**Bird Feeder**

What you will need:  
 Empty Clean Gallon Milk Jug  
 Twigs, moss, various other nature items

Cut a hole about half way down side of jug. Make a small hole under the larger hole that will hold a stick that serves as a perch for the birds. Attach wire or string around the opening at top so you can hang the bird feeder. Glue twigs to the top of jug to look like a roof. Add moss, if desired, to the bottom sides of the jug. Add bird feed .

**A Word from the Pastor**

Greetings and grace to you all in the name of Jesus. As the season of celebration has passed, I am sure many of you will now strive hard to regain focus and normalcy in your lives. Sometimes it's good to remember that as much as we would like, we cannot change one single thing concerning the yesterdays.

Scripture encourages everyone of us to keep moving forward. In our personal lives, it can be very easy to allow things to lose their luster. The necessities become harder to navigate through and before we know it, we procrastinate on them. Did you know it's harder to catch up than it is to stay on track?

Many of you are thinking through resolutions you desire to make - lose weight, attend worship regularly, family Bible time, etc. These are all great and the timing couldn't be better. I encourage you to know the issue is not starting but persevering. My encouragement is for you to find an accountability partner who will encourage your daily commitment to your tasks. Remember, "iron sharpens iron and a man sharpeneth the counsel of his friend".

Bro. Derwin.

**JANUARY**

**Dates to Remember**

**January 7-8**  
 No School Ware County  
**January 21**  
**Martin Luther King Day**

**From the Director's Desk**

**Parents:**

If your child will be coming in late in the mornings but will be here for lunch, please call the daycare by 10:00 am, so the kitchen staff will have an accurate head count for lunch.

Thanks,  
 Mrs. Kathi
