PRAYER POINTS BAPTIST GLOBAL RESPONSE (BGR).

In Otsuchi City, Japan — a fishing town of 15,000-10,000 people were reported missing on Sunday after the March 11 earthquake that was followed by a tsunami. Since that time, however, 1,000 temporary housing units have been built for residents who lost their homes. People are strangers. There is a lack of community identity. BRG partners are providing wooden benches that will allow the residents to come out of their small quarters to meet others when the weather permits. This will contribute to building community and prevent isolation that can often result in suicide. Pray that God will call out workers who are needed for this project.
